

<i>Issue</i>	<i>Democratic</i>	<i>Republican</i>
<i>Gun Control</i>	Sensible gun laws will prevent violence.	Gun laws are a violation of the second Amendment to the constitution, which conveys the right to bear arms.
<i>Abortion</i>	Abortion and birth control are decisions that should be left to the individuals involved.	Abortion is murder and should be prohibited by law.
<i>Government</i>	Government should play a role in national defense, and in safeguarding the freedom and well-being of its citizens.	Less government is best; individual effort and initiative should be more important. State government should be stronger than national government.
<i>The Economy</i>	Job creation and an economy that works for all is the goal.	Greater freedom and tax cuts for the wealthy and corporations are best for the economy.
<i>Climate Change</i>	Climate change is a huge threat, and we must make major efforts to combat it, including reducing our carbon foot print, switching to clean energy, and preserving the environment.	Climate change is overblown or doesn't exist. Reliance on fossil fuels is safe.
<i>Social Services</i>	People who are hungry or homeless should be helped to become self-sufficient; those who cannot support themselves should receive assistance.	People who are poor or needy in America are primarily in that state because they refuse to work. They should help themselves instead of being subsidized by taxpayers.
<i>Election Integrity</i>	Points to studies and evidence that fraud is virtually non-existent. Is concerned about ID laws restricting people from voting, and drawing election districts so that only a candidate from one party can be elected.	Believes that election fraud is a huge problem, especially with minorities, and that stricter laws are required to prevent fraud.
<i>Racism</i>	Racism in our systems still exists; we do not yet have a "level playing field" although we have made progress.	Racism is a thing of the past; everyone is treated equally in America.
<i>Religion</i>	Church and state should be kept separate, and people should be free to worship (or not) as they please.	Has adopted an alliance with Christian Fundamentalism and supports many of their positions – government regulation of reproduction, banning of books, restrictions on educational curriculum in accord with doctrine, condemnation of the LGBTQIA+ community.
<i>Preferred Type of Government</i>	Democracy	Moving towards authoritarianism, with a "strong man" in charge; some leaders express support.
<i>Immigration</i>	Supports a legal, humane immigration system.	Believes that immigrants are dangerous, potentially criminals, are taking American jobs, and will ultimately displace a white majority.
<i>Values</i>	Values independent thought and individual opinions.	Values loyalty.
<i>Business</i>	Businesses are responsible for the safety and well-being of their workers and of their safety, and should not engage in actions that harm the public.	Businesses should not be regulated, their success drives the economy. We should trust their good judgement.
<i>The Constitution</i>	The Constitution can be re-evaluated based on situations in the modern world.	The Constitution, regardless of its age, must be interpreted literally.
<i>Health Care</i>	Health care is a right, and every American should have access to it.	Health care is not a right, and must be purchased in a marketplace run by private companies.
